

# Christian and Values Education

At St James', Christian and Values Education (CAVE) encourages students in exploring faith, belief and spirituality through a curriculum designed to both interest and challenge them. Rather than presenting Bible stories in isolation, students are encouraged to consider how faith connects with life's bigger questions. The purpose of CAVE is not to impose belief, but to provide education that helps students thoughtfully navigate matters of faith, belief and life.

*In everything, do to others what you would have them do to you.  
Matthew 7:12*
